Please allow me this opportunity to thank you for your donation to Echelon Oregon. Echelon is a unique partnership between our participants/donors, our corporate donors, and our beneficiaries who are seeking to put on epic cycling and running challenges each year. The net result is a cost effective series where dollars flow directly our beneficiaries including the OHSU Knight Cancer Institute, LIVESTRONG and the Historic Columbia River Highway.

I know many of you give to great causes each year including cancer research. Currently the private sector gives almost \$1 billion a year in funding to cancer related programs versus the government's \$5 billion. Not a bad number but we would like to see the number grow, particularly at a time when the U.S. is in debate over its public healthcare system.
